Assignment

Question 1: Write a query to display each employee's full name, occupation and department name. Only include employees who have a valid department assigned.

```sql
SELECT
  t1.first_name,
  t1.last_name,
  t2.occupation,
  t3.department_name
FROM parks_and_recreation.employee_demographics AS t1
JOIN parks_and_recreation.employee_salary AS t2
ON t1.employee_id = t2.employee_id
JOIN parks_and_recreation.parks_departments AS t3
ON t2.dept_id = t3.department_id;
```

Result Grid

first_name	last_name	occupation	department_name
Leslie	Knope	Deputy Director of Parks and Recreation	Parks and Recreation
Tom	Haverford	Entrepreneur	Parks and Recreation
April	Ludgate	Assistant to the Director of Parks and Recreation	Parks and Recreation
Jerry	Gergich	Office Manager	Parks and Recreation
Donna	Meagle	Office Manager	Parks and Recreation
Ann	Perkins	Nurse	Healthcare
Chris	Traeger	City Manager	Public Works
Ben	Wyatt	State Auditor	Finance
Mark	Brendanawicz	City Planner	Public Works
Craig	Middlebrooks	Parks Director	Parks and Recreation

Result 1

Question 2: Write a query to show the average salary, minimum salary, and maximum salary in each department.

```sql
SELECT
 department_name,
 AVG (salary) AS average_salary,
  min(salary) AS minimum_salary,
 max(salary) AS maximum_salary
FROM parks_and_recreation.employee_salary
JOIN parks_and_recreation.parks_departments
ON dept_id = department_id
 GROUP BY department_id;
```

Result Grid

department_name	average_salary	minimum_salary	maximum_salary
Parks and Recreation	56428.5714	25000	75000
Healthcare	55000.0000	55000	55000
Public Works	73500.0000	57000	90000
Finance	70000.0000	70000	70000

Result 3

Output

Action Output

#	Time	Action	Message
1	17:23:54	SELECT department_name, AVG (salary) AS average_salary, min(salary) AS minimum_salary, ...	4 row(s) returned

Question 3: Write a query to display the names of employees whose salary is above the average salary of all employees. Include their first name, last name, and salary.

```
SELECT
  first_name,
  last_name,
  salary
FROM parks_and_recreation.employee_salary
WHERE  salary > (SELECT AVG(salary) FROM parks_and_recreation.employee_salary);
```

Result Grid | Filter Rows: | Export: | Wrap Cell Content:

first_name	last_name	salary
Leslie	Knope	75000
Ron	Swanson	70000
Donna	Meagle	60000
Chris	Traeger	90000
Ben	Wyatt	70000
Craig	Middlebrooks	65000

Question 4: Write a query to list all employees (from employee_demographics) and their corresponding occupation.
If an employee doesn't have a salary record, display 'Not Assigned' under the occupation column.

Limit to 1000 rows

```
SELECT d.first_name, d.last_name, IFNULL(s.occupation, 'not assigned') as occupation
FROM parks_and_recreation.employee_demographics AS d
LEFT JOIN parks_and_recreation.employee_salary AS s
ON d.employee_id = s.employee_id;
```

Result Grid | Filter Rows: | Export: | Wrap Cell Content:

first_name	last_name	occupation
Leslie	Knope	Deputy Director of Parks and Recreation
Tom	Haverford	Entrepreneur
April	Ludgate	Assistant to the Director of Parks and Recreation
Jerry	Gergich	Office Manager
Donna	Meagle	Office Manager
